Respondent.)	

ORDER OF THE BOARD (by Mr. Goodman):

The original regulatory proceeding herein, R76-6, was filed before the Board by the Central Illinois Public Service Co. (CIPS) on March 3, 1976 pursuant to the then existing Rule 203(i)(10) of the Board's Water Pollution Regulations. On June 9, 1977, in R77-7, the Board amended the procedural aspect of 203(i)(10) changing the procedure from regulatory to adjudicative in nature in order to simplify the manner in which alternative thermal standards could be determined for specific sites. Since the procedures used in R76-6 fulfill the requirements of the new adjudicative procedure under Rule 203(i)(10)(cc) and since the Board can find no potential prejudice to any person, the Board on its own motion hereby changes this matter to an adjudicative proceeding, assigns it docket number PCB 78-271, and incorporates the total record of R76-6 therein. The Board also on its own motion hereby dismisses R76-6 as being repetitive of the action in PCB 78-271.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the day of _______, 1978 by a vote of ______.
