FOOTNOTES

<sup>1</sup>The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup>Code 1100—"Household units" are defined as a house, an apartment, or other group of rooms, or a single room that is intended for occupancy as separate living quarters. Occupants of "Household units" do not live and eat with other persons in the structure (such as in a boarding house), and there is either (1) direct access from the outside or through a common hall, or (2) there is a kitchen or cooking equipment for the exclusive use of the occupants of the unit. The occupants may be a family, a group of unrelated persons, or a person living alone. Mobile homes not in "Mobile home parks or courts" (code 14), but resting on a permanent type of foundation (e.g., a brick or concrete block foundation) are included as well as units that are vacant or that are used on a seasonal basis. Farm homes are also included under "Household units" and should be identified separately from the remainder of the farm which is coded under "Agriculture," code 81.

<sup>3</sup>Code 1210—"Rooming and boarding houses" are those that have 5 or more persons renting rooms, with or without board, and not related to the head or person in charge. Where there are less than 5 roomers, the total quarters are considered as one "Household unit" and is coded 1100.

<sup>4</sup>"Incl. 7041" is an abbreviation which indicates that the 4-digit land use activity category is only one of several categories of establishments that are included under SIC code 7041.

<sup>5</sup>"NEC" is an abbreviation for "not elsewhere coded."

<sup>6</sup>Code 1300—"Residential hotels" are those that have 75 percent or more of the available accommodations occupied by permanent guests (i.e., persons who reside more than 30 days). Hotels with less than 75 percent are included under code 15, "Transient lodgings."

<sup>7</sup>Code 1590—"Other transient lodgings, NEC" includes such establishments as the YMCA, YWCA, and YMHA when 50 percent or more of the floor area is devoted to lodging and associated activities and when less than 75 percent of the accommodations are occupied by permanent guests. If 75 percent or more of the guests are permanent, use code 1300. If 50 percent or more of the floor area is devoted to recreational activity, use code 7424, "Recreation centers (general)."

\*"Land Class" refers to Rule 201 Classifications. "A" denotes a Class A Land, "B" denotes a Class B Land and "C" denotes a Class C Land. "U" denotes a Land unclassified in Rule 201. (Added by IEPA.)

<sup>1</sup> The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup> Code 4121—"Rapid rail transit and street railway right-of-way" includes only that land which is *not* within public right-of-way (e.g., within a public street right-of-way). Railroad right-of-way used by rapid rail transit is considered to be railroad right-of-way and is coded 4111.

<sup>3</sup> Code 4122—"Rapid rail transit and street railway passenger terminals" identifies only those terminals that are *not* located within public right-of-way (e.g., within a public street right-of-way).

<sup>4</sup> Codes 4211, 4212, 4213—"Bus passenger terminals" identifies only those terminals that are *not* located on the public right-of-way (e.g., within a public street right-of-way).

<sup>5</sup> Code 4391—"Helicopter landing/takeoff pads" are identified only when they are separate activities and not a part of code 431, "Airports and flying fields."

<sup>6</sup> Code 44—"Marine craft transportation." The maintenance and repair of marine craft should be coded 3443, "Ship and boat building and repairing."

<sup>7</sup> Code 441—"Marine terminals" include all docking facilities (e.g., wharves, piers, and docks) and associated areas that are used by commercial passenger, freight, and fishing craft. Docking facilities that primarily serve recreational type of marine craft are identified under code 744, "Marinas."

<sup>8</sup> Code 4411—"Marine terminals (passenger)" include ferry terminals.

<sup>9</sup> Code 4510—"Freeways" are divided highways for through traffic with full control of access and no cross traffic at grade.

<sup>10</sup> Code 4520—"Expressways" are divided highways for through traffic with full or partial control of access with grade separations at major crossroads.

<sup>11</sup> Code 4530—"Parkways" are highways for noncommercial traffic, with full or partial control of access. They are located within a park or within a ribbon of parklike development.

<sup>12</sup> Code 4540—"Arterial streets" are those streets which serve movements of traffic and are not freeways, expressways, and parkways. Generally there is no control of access.

<sup>13</sup> Code 4550—"Collector/distributor streets" are those streets that collect traffic from the local streets and channel it into the arterial system. These streets also provide necessary cross-connections between arterials. The collector/distributor street does not handle long through trips, and it is not continuous for any great length.

<sup>14</sup> Code 4560—"Local access streets" are those used primarily for access to residences, businesses, or other abutting activities.

<sup>15</sup> Code 4570—"Alleys" are minor narrow streets usually without sidewalks and on which building adjoin from the rear.

<sup>16</sup> Code 4600—"Automobile parking" includes nonresidential off-street parking that is 5,000 square feet or greater (or approximately

17 parking spaces), and that serves no other single type of activity. This code includes parking on open lots, parking within parking structures, parking within structures that also house other activities (e.g., parking area in an office building), and the parking area at a shopping centers. Parking areas of less than 5,000 square feet are not identified as a separate activity.

<sup>17</sup> Codes 4811, 4821, 4831, 4911—These codes identify those areas where the surface is devoted exclusively to the right-of-way of the respective activities and is used for no other purposes.

<sup>18</sup> Code 4833—"Water storage" includes impounded surface water areas or water tanks used for storage. Lakes or other natural water formations are identified under code 93, "Water areas."

<sup>19</sup> Code 4924—"Transportation ticket services" include the ticket offices of any of the transportation systems. The ticket offices are identified only when they are a separate and distinct activity, not located within one of the transportation terminals.

<sup>1</sup> The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup> Code 637—"Warehousing and storage services" include only those facilities that are used by or are open to the public. When warehousing and storage is functionally and organizationally linked to another activity (e.g., a general contractor or an apparel manufacturer), the facilities are identified and coded the same as the parent activity and with a code of 4 (warehousing and storage) in the auxiliary position. For example, 2310-4 is a warehouse and storage area of a manufacturer of men's, youths', and boys' suits, coats, and overcoats.

<sup>3</sup> Code 6710—"Executive, legislative, and judicial functions" include only the central and administrative office activities of the agencies or special authorities involved in government functions, including the

legislature and courts. All operational activities (e.g., shipbuilding, schools, or hospitals) should be identified separately under the respective activity codes.

<sup>4</sup> Code 675—"Military bases and reservations" include the installations used by both the active military as well as the Reserves and the National Guard.

<sup>5</sup> Code 6812—"Primary (elementary) schools" may or may not include a kindergarten, but they do include grades 1 through 6.

<sup>6</sup> Code 6813—"Secondary schools" are schools that include grades 7 through 12, popularly known as junior and senior high schools.

<sup>7</sup> Code 691—"Religious activities" include only those places operated for worship or for the promotion of religious activities. Activities maintained by the religious organizations (e.g., schools, hospitals, publishing houses, etc.) should be identified separately under the respective activity codes.

<sup>1</sup> The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup> Code 7113—"Art galleries" do not include those galleries that sell art objects commercially. Commercial sales are coded 5999, "Other retail trade, NEC."

<sup>3</sup> Code 7191—"Historic and monument sites" include those locations set aside for no other purpose than to commemorate an historical event, activity, or person.

**B. A STANDARD SYSTEM FOR IDENTIFYING AND CODING LAND USE ACTIVITIES—TWO-, THREE-, AND FOUR-DIGIT LEVELS—Continued**

**FOOTNOTES**

<sup>1</sup> The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup> Code 9100—"Undeveloped and unused land area (excluding non-commercial forest development)" identifies those parcels of land that appear to be undeveloped or if previously developed, are presently vacant and unused. This category includes such areas as vacant lands that once were farms, as well as vacant parcels where structures have been demolished. Vacant nonresidential buildings are coded 9400, "Vacant floor area."

<sup>3</sup> Code 921—"Forest reserves" are forested areas withdrawn from commercial utilization, and which are reserved through statute or administrative regulation for specific conservation purposes. Forested areas designated as park sites may also be restricted from commercial forestry production, but because of their designation for recreational activity they should be identified and coded as "Parks" (code 76).

<sup>4</sup> Code 9220—"Nonreserve forests (undeveloped)" are major forested areas not on a farm, ranch, or large estate with no commercial use made of the trees. It is recognized that other activities such as recreation or the grazing of livestock may also be taking place within these forested areas. However, these types of activities are considered secondary in nature and not coded. Activities such as mining (code 85), permanent camping areas (code 7491), and logging camps (code 2410), located within these forested areas should be separately identified.

<sup>5</sup> Code 9320—"Lakes" include permanent lakes (natural or manmade) with a minimum size of 1 acre. Impounded surface water areas used for storage should be identified as "Water storage," code 4833.

<sup>6</sup> Code 9510—"Residential facilities under construction are considered to be completed when all exterior windows and doors are installed and the usable floors are in place. If construction has not reached this point, the parcel should be identified as "Under construction (residential)," code 9510.

<sup>7</sup> Code 9520—"Under construction (nonresidential)" is used only if there is no means of identifying the activity or activities that will occupy the structure when it is completed.

**B. A STANDARD SYSTEM FOR IDENTIFYING AND CODING LAND USE ACTIVITIES—TWO-, THREE-, AND FOUR-DIGIT LEVELS—Continued**

**FOOTNOTES**

<sup>1</sup> The SIC codes are listed for purposes of reference. They are the codes in the SIC system that most nearly correspond to the 4-digit land use activity indicated. (See ch. III, sec. A3, "The Use of Standard Industrial Classification Nomenclature.") A dash indicates that there is no corresponding SIC code.

<sup>2</sup> Code 81—"Agriculture." A parcel of land is considered to be in agricultural use if 10 or more acres are under cultivation, in tree or bush crops, or are used for livestock or poultry purposes. The 10 acres may include the area of the residence, if there is one, and the immediate associated area surrounding the residence.

<sup>3</sup> A farm may consist of several ownership or rented parcels of land that are noncontiguous. However, each parcel should be linked together as one "farm management unit," and identified by only one 3- or 4-digit category, e.g., code 8120, "Farms (predominant crops, cash grains)."

Using the "Farm use" categories in app. 2 of this report, farm (i.e., the farm management units) are to be classified by the most predominant use made of the land (the farm use taking up the greatest percentage of farm area) excluding the areas used by farm residences and associated buildings, nonresident farm buildings, areas in feed crops, and grazed and nongrazed forested areas. Exceptions to this rule are:

a. If 50 percent or more of the value of the farm products sold in the previous year came from the sale of dairy products, or the sale of cows and calves, the farm is identified as "Farm (predominantly dairy products)," code 8150.

b. If 50 percent or more of the value of the farm products sold in the previous year came from the sale of livestock, wool, or mohair, the farm is identified as "Farms and ranches (livestock, other than dairy)," code 816.

c. If 50 percent or more of the value of the farm products sold in the previous year came from the sale of poultry and eggs, the farm is identified as "Farms (predominantly poultry)," code 8170.

d. If the percentage of dairy, livestock, and poultry products, each came to less than 50 percent of the value of the farm products sold in the previous years, and if there are 3 or more "Farm uses" (e.g., corn crop, cotton crop, etc.) within a farm, none of which takes up 25 percent of the total farm area (excluding those areas referred to above), the farm is identified as "Farms (general—no predominance)," code 8180.

<sup>4</sup> Code 8191—"Range and grass land pastures (not farm or ranch)" include grasslands used for grazing purposes that are not a part of a

farm or ranch. These areas are usually part of the public domain in which grazing has been permitted.

<sup>5</sup> Code 821—"Agricultural processing" includes only preliminary processing of agricultural products. Any extensive processing, packing, canning, or manufacturing is coded 21, "Food and kindred products—manufacturing."

<sup>6</sup> Code 83—"Forestry activities and related services." The categories in this classification are based upon primary use of the land. It is recognized that other activities, e.g., recreation or the grazing of livestock may also be taking place within these forested areas. However, these types of activities are considered secondary in nature and not coded. Activities such as mining (code 85), permanent camping areas (code 7491), and logging camps (code 2410), located within the forested areas should be separately identified.

<sup>7</sup> Code 831—"Commercial forestry production" includes those forested areas not on the farms or ranches that are being managed or have been set aside to grow tree crops for "industrial wood" or to obtain tree products such as sap, bark, or seeds. "Industrial wood" includes commercial roundwood products, such as saw logs and pulpwood, but excludes fuel wood and fence posts. "Forest reserves," i.e., areas withdrawn from any commercial use of the trees, are coded 921. "Parks," e.g., national or State parks, are also a type of forest reserve, but because of their designation for recreational activity, they should be identified as "Parks" under code 76. Forested areas not on farms, ranches, or estates with no commercial use made of the trees are coded 922, "Nonreserve forests (undeveloped)."

<sup>8</sup> Code 841—"Fisheries and marine products" include those establishments primarily engaged in commercial fishing, the catching or taking of shellfish, or the gathering of seaweed, sponges, turtles, frogs, etc. These activities may include some preliminary processing, e.g., salting. However, any extensive processing, packing, canning, or manufacturing of these products should be coded under "Food and kindred products—manufacturing," code 21. These categories also include the docking facilities and their associated areas when these facilities are an integral part of a single fishery operation. When docking facilities serve several separate fishery establishments, they are coded 4414, "Marine terminals (predominantly fishing vessels)."

<sup>9</sup> Code 85—"Mining activities and related services" include those surface areas being used for mining or drilling purposes. The process may be tunnel excavation, strip mining, quarrying, or by drilling. These categories also include those areas where preliminary processing of raw materials (e.g., washing, crushing, screening, etc.) are taking place if these processes are an integral part of the mining operation.
