ILLINOIS POLLUTION CONTROL BOARD December 8, 1977

KOPPERS COMPANY, INCORPORATED, Petitioner, v. PCB 75-350 ENVIRONMENTAL PROTECTION AGENCY, Respondent.

ORDER OF THE BOARD (by Mr. Goodman):

The original Variance Petition in this matter was filed by Koppers Company, Incorporated, (Koppers), on September 5, 1975, and a similar Amended Petition was filed November 12, 1975. The Petition and its Amendment both sought extension of variances previously granted to Koppers for its Stickney, Illinois, manufacturing facility. The earlier Variances, PCB 73-365 (1973), PCB 74-63 (1974), and PCB 74-325 (1975), granted relief from the carbon monoxide emission limitations of Chapter 2: Air Pollution, Rule 206(c), and from Chapter 2, Rule 103(5)(A) (allowing certain construction).

Since the filing of the instant Variance, the Board has considered several Petitions seeking amendment of Rule 206, and in a separate Order has today enacted several changes to Rule 206 which generally conform to the Amended Regulatory Petitions before it. See, R75-9 et al., "Carbon Monoxide." Since no enforcement matters appear to be pending against Koppers for its emissions of carbon monoxide prior to today's regulatory action, we feel that the instant matter may be dismissed without prejudice as moot.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 3^{7} , day of 3^{7} , 1977 by a vote of 3^{7} .

Christan L. Moffer, Clerk Illinois Pollution Control Board
