

ILLINOIS POLLUTION CONTROL BOARD

September 15, 1977

PEOPLE OF THE STATE OF ILLINOIS and
ENVIRONMENTAL PROTECTION AGENCY,

Complainants,

v.

VILLAGE OF LAKE ZURICH, an Illinois
municipal corporation,

Respondent.

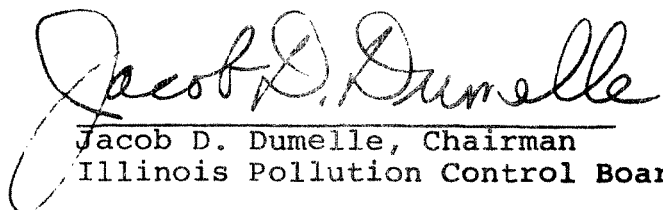

PCB 76-288

CONCURRING OPINION (by Mr. Dumelle):

My preference would have been for a monetary penalty in this case. Lake Zurich, as a community of 6,789 people, is not too small to operate its costly sewage treatment plant according to State regulations. And expensive sewage treatment plants are not merely wide places in a sewer outfall's journey to the river.

The Order does finally put Lake Zurich on a tight program of correction. As a deterrence to others and as an aid in the enforcement of the Environmental Protection Act I would have levied a penalty of at least \$500.

Respectfully submitted,

Jacob D. Dumelle, Chairman
Illinois Pollution Control Board

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Concurring Opinion was submitted on the 19th day of September, 1977.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
