 )  
 )  
ENVIRONMENTAL PROTECTION AGENCY, )  
 )  
Respondent. )

SUPPLEMENTAL ORDER OF THE BOARD (by Mr. Goodman):

This matter comes before the Pollution Control Board (Board) upon a letter received from Petitioner on February 13, 1976. The Board will construe that letter as a motion to release its performance bond and to be released from its obligation to file further quarterly reports required by our October 30, 1975, Order in this matter. Mt. Carmel Public Utility Company (Mt. Carmel) states that its 138 KV line was tied in to the Albion substation of CIPS and energized on October 10, 1975. Its No. 4 coal-fired boiler was taken out of service on that date. The line was tested and put into commercial operation on October 13, 1975.

The Board finds that Mt. Carmel has made adequate progress in the compliance program and that no reason exists for either the continuation of the performance bond or the filing of quarterly reports.

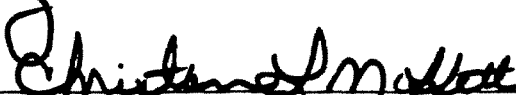

It is the Order of the Board that:

a) The Environmental Protection Agency (Agency) release Mt. Carmel's \$25,000.00 performance bond; and

b) Mt. Carmel be excused from filing further quarterly progress reports with the Agency.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Supplemental Order was adopted on the 26<sup>th</sup> day of February, 1976 by a vote of 5-0.
