ORDER OF THE BOARD (by Mr. Young):

This matter comes before the Board on the motion of Complainant in opposition to our Order entered January 22, 1976, which gave Respondents the option of accomplishing a physical separation of its water supply system by sealing the inter-connecting valve.

While Complainant submits that this option, if exercised, will not result in a physical separation of the system, the Board believes that this alternative would produce the same effect, and in addition offers some additional advantages. For these reasons, Complainant's motion is denied.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 25th day of March, 1976 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
