 vs. ) PCB 75-138  
 )  
 ENVIRONMENTAL PROTECTION AGENCY, )  
 )  
 ) Respondent. )

ORDER OF THE BOARD (by Mr. Henss):

On June 26, 1975 the Petition for Variance was dismissed without prejudice. The Opinion of the Board stated that the variance could be granted if a specific plan could be developed for use of an air curtain destructor in the disposal of a part of the diseased elm trees now standing in the City of Galena. Subsequently, Petitioner filed a document which we interpret as a Motion for Reconsideration. The Pollution Control Board will reconsider the case but find that additional input is necessary for any final decision. The parties will be ordered to submit, jointly or separately, a detailed plan for disposal of the wood wastes. The plan shall be submitted to the Pollution Control Board within 45 days after receipt of this Order.

It is Ordered that the issues in this matter be reconsidered. The City of Galena and the Environmental Protection Agency shall, jointly or separately, submit a plan for disposal of the wood wastes which are involved in this proceeding. The plan or plans shall be submitted to the Pollution Control Board within 45 days after receipt of this Order.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted the 14<sup>th</sup> day of August, 1975 by a vote of 5-0.

Christan L. Moffett (gr)  
Christan L. Moffett, Clerk  
Illinois Pollution Control Board
