ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed September 4, 1975 is inadequate in that the effects of the Farmington Sewage Treatment Plant discharge upon the receiving stream are not quantified. The Board would wish to know the dissolved oxygen levels of the stream and the nature of the existing benthic organisms, whether pollution-tolerant or pollution-intolerant and whether septic odors exist.

Petitioner shall amend the Petition to provide the required information within 45 days from the date of this Order. The 90-day decision period set by statute shall run from the date of filing of the Amended Petition.

Failure to timely file the Amended Petition shall render the Petition liable to dismissal for inadequacy.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 18th day of September, 1975 by a vote of 4-0.
