ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed December 2, 1974 is inadequate in that the environmental effects of the proposed variance grant are not delineated. The strength of the Bethalto sewage treatment plant effluent before and after the proposed connection of the mobile home park to it are not given nor is the condition described of the receiving stream (dissolved oxygen, bottom deposits, algae, etc.) below the discharges.

Furthermore, the petition seems to be internally inconsistent in that it refers to a "late 1974" date for completion of the interceptor sewer (1(d)) and yet at another point discusses a "December 15, 1975" completion date (5).

An amended petition providing the information detailed above shall be submitted within 45 days of the date of this order to both the Board and Agency. Failure to timely file the needed information shall make the petition liable to dismissal for inadequacy. The 90-day decision period set by statute shall run from the date of filing the additional information.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 5<sup>th</sup> day of December, 1974 by a vote of 5-0.
