ORDER OF THE BOARD (by Mr. Henss)

Medusa Corporation has filed Motion for Reconsideration of Order. The Motion was filed more than two months after our final Order of November 15, 1973 and is an attempt to introduce new material into the record and suggest a completely new pollution control system as the preferred method of control in this case. The new system has not been passed on by the Environmental Protection Agency. The Motion is not timely filed nor is its substance appropriate for a reconsideration of our November 15, 1973 Order.

The Motion for Reconsideration will be denied. We will consider this a new variance petition and it shall be docketed as such. The petition was filed on January 23, 1974 and the deadlines established by the Environmental Protection Act for the EPA to file its Recommendation and the Board to make its ruling shall be computed from that date.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted this 31<sup>st</sup> day of January, 1974 by a vote of 5 to 0.
