

ILLINOIS POLLUTION CONTROL BOARD  
February 28, 1974

STROMBECK MANUFACTURING COMPANY )

v. )

PCB 74-71 )

ENVIRONMENTAL PROTECTION AGENCY )

ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed February 21, 1974 is inadequate in that it does not give the cost nor time involved in installing controls for the 7.0 lbs. of particulates per million Btu's which will be emitted when wood is burned. No showing is made that gas cannot be obtained. Since the petitioner wishes to burn its wood wastes in lieu of gas then the Board must know the costs of compliance and the compliance program to meet the air emission regulations.

Petitioner is ordered to file the above listed information within 45 days from the date of this order. The 90-day decision period shall run from the date of filing the amended petition. Failure to timely file the information requested shall render the petition liable to dismissal for inadequacy.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 28<sup>th</sup> day of February, 1974 by a vote of 5-0.

  
Christan L. Moffett, Clerk  
Illinois Pollution Control Board
