Respondent)	

ORDER OF THE BOARD (by Dr. Odell)

Petitioner shall file with the Board, within 15 days of this Order, more detailed information on the topography of the subject land. This should include information on the availability of land of such elevation on this property into which a new septic tank distribution system could be installed in such a manner as to achieve adequate percolation and avoid health hazards, including during wet periods. Information should also be included on the feasibility of the above possible changes in the septic distribution system.

Petitioner is requested to give with the above information a waiver of 60 days from the date of this Order so that the Board may adequately consider the facts of this case.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted this 13th day of December, 1973 by a vote of 5-0.
