)

INTERIM ORDER OF THE BOARD (by Mr. Dumelle):

Petition dated May 15, 1973 and filed May 17, 1973 with the Board is inadequate because the resulting copper dosage in the drinking water is not given and because the alternative of using biodegradable algicides is not considered. We also do not know if this is a flow-through reservoir and if copper applications affect aquatic life downstream.

Petitioner is ordered to file within 30 days an amended petition setting forth additional information needed for a decision. A waiver of the right to a decision within 90 days for the 30 day period shall also be filed. Failure to file shall make the petition liable to dismissal on grounds of inadequacy.

It is the Board's intention to decide this proceeding without a hearing.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Interim Order was adopted on the 24th day of May, 1973 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
