OPINION AND ORDER OF THE BOARD (by Mr. Dumelle)

On February 22, 1973 a letter petition was received from the petitioner requesting a sewer permit in Gurnee in order to build a house on Magnolia Street in order to generate temporary employment.

We assume that the sewage from Gurnee drains to the Clavey Road treatment plant of the North Shore Sanitary District though the petition is silent on this. The Clavey Road plant has used up its quota of sewer connections and no more remain at this time.

The grounds as alleged are insufficient to the Board to grant this petition and accordingly it is dismissed as being inadequate.

ORDER

The petition is dismissed as having inadequate grounds for hardship sufficient to consider for granting the variance.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Opinion and Order were adopted on the 27th day of February, 1973 by a vote of _____.

Christan L. Moffett, Clerk

Illinois Pollution Control Board
