ILLINOIS POLLUTION CONTROL BOARD November 28, 1972

VERNON F. EHREDT

#72-388

ENVIRONMENTAL PROTECTION AGENCY

Opinion & Order of the Board (by Mr. Currie):

This petition seeks permission to connect a new home to a public water supply whose operation we found to be in violation of applicable regulations (McHenry Shores Water Co. v. EPA, #72-137, 4 PCB 745 (June 29, 1972)). As in Beran v. EPA, #72-399, 5 PCB (Nov. 14, 1972), construction of the home began before any ban on connections, and for reasons stated in Beran, the hardship is sufficient to justify the minimal adverse effect on water pressure. The variance is hereby granted.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion & Order this 28^{th} day of <u>over 1990</u>, 1972, by a vote of
