ENVIRONMENTAL PROTECTION AGENCY)

v.)	#71-355

CITY OF JACKSONVILLE)	

OPINION AND ORDER OF THE BOARD (BY SAMUEL T. LAWTON, JR.):

The Environmental Protection Agency has moved to dispense with further hearing in the above-entitled cause on the grounds that it has given general acceptance to Respondent's program with respect to removal of lime sludge and other contaminants deposited in the Mauvaise Terre Creek, pursuant to our May 23, 1972 order.

On reviewing the various documents filed in this proceeding subsequent to our order, we are unable to discern precisely what the Agency's attitude is on the various alternative programs submitted by Respondent, and accordingly, direct that the hearings proceed so that the Board will be fully cognizant of the program proposed by Respondent and the Agency's attitude with respect thereto. Hearing heretofore set by the Hearing Officer should be continued for approximately 2 weeks from the date set, in order that both parties may be adequately prepared to proceed as directed in this order.

I, Christan Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Opinion and Order was adopted on the 13th day of December, 1972, by a vote of 4 to 0.
