ILLINOIS POLLUTION CONTROL BOARD July 18, 1972

METROPOLITAN SANITARY DISTRICT)	
OF GREATER CHICAGO)	
)	
)	
V.)	# 72-110
)	
)	
ENVIRONMENTAL PROTECTION AGENCY	}	

Opinion & Order of the Board on Amended Petition (by Mr. Currie):

On June 27, 1972 we ordered additional information to support the request for extension of a variance granted May 23, 1972 approving a May, 1974 date for completion of an interceptor sewer. We have since received an amended petition repeating the conclusory allegation that the date originally submitted by the District cannot be met, but without supporting data. We cannot grant the extension without proof. We offer the District an additional 20 days in which to submit such proof as may be necessary to support the allegation, and will expect the Agency's recommendation within 20 days thereafter. We note also the request that the security required be reduced in accordance with precedent and invite the Agency's comment.
