72-294

Preliminary Opinion & Order of the Board (by Mr. Currie):

This petition appears to seek more time than that allowed by an Environmental Protection Agency permit for testing asbestos emissions. The petition does not contain sufficient factual allegations as to the permit conditions in question, the emissions from the plant, or other issues to enable us to make an intelligent evaluation. We call the petitioner's attention to our procedural rules, specifying the proper contents of a petition. We shall allow 20 days for filing of an amended pleading.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Preliminary Opinion & Order this 18th day of July, 1972 by a vote of 5-0.

Christan D. Moffett
