Opinion & Order of the Board (by Mr. Currie):

Velsicol's first petition seeking more time to comply with unspecified water pollution requirements with respect to its Clark County plant was dismissed for failure to give adequate information as required by our procedural rules, #72-290 (July 18, 1972). Velsicol's present petition contains specifics as to the effluent discharged but still wholly fails to inform us or the Agency as to what regulations it seeks relief from or what may be the effect of the discharge on the receiving stream. Once more the petition is dismissed for failure to allege the relevant facts as required by the Rules, without prejudice.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion & Order this 8th day of August, 1972, by a vote of 5-0.
