Opinion & Order of the Board (by Mr. Currie):

Sandwich petitioned for a variance, seeking an extension of time on which to meet the July, 1972 deadline (PCB Regs., Ch. 3, Rule 405) for compliance with the effluent standard for fecal coliforms in municipal sewage. We requested additional information as to the costs that interim disinfection would entail. City of Sandwich v. EPA, #72-322 (August 8, 1972). In reply the City informs us that it "has already installed temporary chlorination facilities and, therefore, variance proceedings will not be necessary." Since the City no longer requests a variance, the petition is hereby dismissed as moot.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion & Order this $\underline{\bigcirc}$ day of August, 1972, by a vote of $\underline{\bigcirc}$.
