Opinion and Order of the Board (by Mr. Currie)

These two petitions ask variances to allow connection of single-family homes to sewers in Waukegan despite our connection ban (LWV v. NSSD, #70-7, March 31, 1972). Both homes are in Waukegan and therefore, we infer, tributary to the Waukegan or Clavey-Road treatment plants, to which we have authorized a number of connections because of treatment plant improvements. (NSSD v. EPA, #71-343, March 2, 1972). So far as we can tell from the petitions, the petitioners are free to obtain connection permits from the District, and no variance is therefore necessary. If this proves incorrect, amended petitions may be filed. The petitions are hereby dismissed.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order this 3rd day of May, 1972, by a vote of 4-0.

Christan L. Moffett
