

ILLINOIS POLLUTION CONTROL BOARD  
September 6, 1972

DONALD R. GREGG and )  
ROSE M. GREGG )  
 ) #72-362  
 )  
v. )  
 )  
ENVIRONMENTAL PROTECTION AGENCY )

ORDER

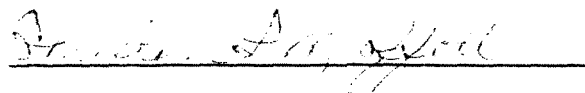

A petition for variance has been filed by the above petitioners with respect to the Board's "Rules and Regulations as to the Use of Sewers and Waters" in respect to certain specified area in the Village of Carpentersville, Kane County, Illinois.

Petitioners propose the construction of a thirty-bed nursing home. It is difficult to tell from the petition precisely what is sought by the variance or what order or ruling prevents petitioners from proceeding. The petition seeks a variance of the Rules and Regulations to allow the discharge of 9,600 gallons of waste water, sewage and wash water into the Village of Carpentersville's sewage system during an unspecified period and to connect to the sewage system of Carpentersville. If a sewer permit has been denied or a sewer connection ban has been imposed, we should be so advised.

Hearing is directed to be held on the petition. Petitioner shall submit to the Board, within ten days from the receipt of this order, detailed information as to precisely what order or regulation the variance petition relates to and why such a variance is needed. The statutory ninety-day period for the rendition of a variance order shall commence upon the Board's receipt of the foregoing information.

IT IS SO ORDERED.

I, Christan Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Order was entered on the 6 day of September, 1972, by a vote of 4 to 0.
