ILLINOIS POLLUTION CONTROL BOARD June 20, 1972

ENVIRONMENTAL PROTECTION AGENCY))	
v.)) # 7)	1-355
CITY OF JACKSONVILLE))	

SUPPLEMENTAL ORDER AND OPINION OF THE BOARD (BY MR. CURRIE):

Following our order of May 23, 1972, the City asked to be allowed flexibility in choosing means of meeting the substantive requirements of that order, stating the belief that a less expensive but equally effective method might be found than that the City originally proposed. The Agency concurs in the amendment, and so do we.

The second subparagraph of Paragraph 1 of the Board's order of May 23, 1972 in the above-captioned case is hereby amended to read as follows (words added by this amendment are underlined):

"That further City is hereby ordered to proceed promptly to complete its plans and specifications for the installation of its lime sludge dewatering equipment and process to provide that the liquid effluent from its water sludge lagoons be placed into the sanitary sewage system of said City or such other suitable alternative plan for disposal of lime sludge and effluent from the lagoons that meets the standards and approval of the Agency. That complete plans and specifications are to be submitted to the Agency by August 1, 1972, and construction to be completed within ten (10) months of the date a permit is issued by the Agency."

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted theabove Supplemental Order and Opinion this 20th day of June, 1972 by a vote of 5-0.
