INTERIM ORDER OF THE BOARD (by Mr. Dumelle)

By letter dated August 28, 1972 the City of Macomb has filed a variance request to use copper sulfate to treat their water supply reservoir.

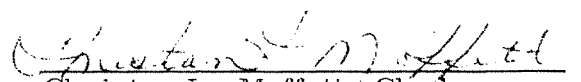

The petition is wholly inadequate in that it does not give dosage rates, resulting copper concentrations or effects upon the environment nor does it pursue or allege that various alternative algae control methods delineated in other Board opinions on this subject cannot be used.

If the need still exists for this variance, petitioner may submit additional information by or before November 6, 1972 provided that the 90 day period within which the Board must act on this variance shall run from the date of receipt of the amended petition.

The Agency is requested to furnish the petitioner with copies of previous Board opinions on this subject.

It is so ordered.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Interim Order of the Board was adopted on the 26<sup>th</sup> day of September, 1972 by a vote of 5 - 0.

  
 Christan L. Moffett, Clerk  
 Illinois Pollution Control Board
