Preliminary Order of the Board (by Mr. Currie):

This petition seeks permission to connect 180 planned housing units to sewers tributary to the North Chicago sewage treatment plant of the North Shore Sanitary District. Allegations are made as to actions taken and to be taken by the District to improve the plant's capacity and make room for additional connections. We believe that in order to assure an equitable allocation of any new capacity so created the presence of the District as a party is necessary. We therefore join the District as a party and invite it to submit a petition of its own seeking permission to allow additional connections on the basis of plant improvements. Cf. NSSD v. EPA, #71-343, 3 PCB 541 and 697 (Jan. 31 and Mar. 2, 1972). A hearing is hereby authorized on the Argonne petition.

Mr. Lawton did not participate in the discussion or decision in the matter.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Preliminary Order this 3rd day of October, 1972, by a vote of 4-0.
