

ILLINOIS POLLUTION CONTROL BOARD
November 15, 1971

GENERAL PAINT & CHEMICAL COMPANY)
)
 v.) PCB 71-115
)
 ENVIRONMENTAL PROTECTION AGENCY)
)

Supplementary Order:

The order issued by this Board on November 8, 1971 in the instant variance case was incomplete when compared to the order in similar mercury regulation variance cases inasmuch as it did not specify a figure in pounds of mercury to which the petitioner would be limited for the one year term of the variance grant. Such a figure was unspecified in the order of November 8 because testimony relating to petitioner's total annual discharge of waste water was not in the record. We will direct the company to submit this flow information within 14 days by affidavit. Upon receipt of these verified facts it may be appropriate for this Board to vacate its order of November 8 and rewrite it to include a pound limitation.

It is so ordered.

I, Christan Moffett, Acting Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above Supplementary Order on the 15 day of November, 1971.

Christan Moffett, Acting Clerk
Illinois Pollution Control Board
