

ILLINOIS POLLUTION CONTROL BOARD  
October 17, 1972

ROBERT J. BARTELL )  
 )  
 )  
 v. ) # 72-382  
 )  
 )  
 ENVIRONMENTAL PROTECTION AGENCY )

Order of the Board (by Mr. Currie):

The petition seeks permission to connect an existing home to a Waukegan sewer, which apparently is overloaded in wet weather within our order in NSSD v. EPA, #71-343, 3 PCB 541 and 697 (Jan. 31 and Mar. 2, 1972). An attached letter from the Lake County Health Department shows that an existing septic tank has been rendered inadequate by changes in surface drainage, resulting in inadequately treated sewage on the petitioner's property. In similar cases we have granted variances without hearing, Winsor v. EPA, #71-334, (Nov. 23, 1971). We notified the Agency of our intention to decide the case as rapidly as possible without hearing and asked for a recommendation within 21 days. No objection having been received, the variance is hereby granted to eliminate the obvious health hazard.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Order this 17<sup>th</sup> day of October, 1972 by a vote of           .

Christan J. Moffett
