Supplementary Order (by Mr. Currie):

We granted a variance in this case September 16 to permit the connection of several new low-income homes to the Waukegan sewer tributary to an overloaded treatment plant. One of the lots comtemplated for the construction of a home for a person with a contract for construction became unavailable, and a request is made for clarification that the variance covers another lot for the use of the same individual. This modification in the original plan in no way alters the consequences of the proposed connection, and the substitution is entirely within the spirit of the original order. The order is hereby clarified to indicate that a house may be built at the new site, namely Lot 29 Block 6 Waukegan Gradens subdivision, for Myrtle Harris, and may be connected to the appropriate sewer.

I, Christan Moffett, Acting Clerk of the Pollution Control Board, certify that the Board adopted the above Supplementary Order this 9th day of December, 1971.

Shirtan Moffett
