

ILLINOIS POLLUTION CONTROL BOARD
December 9, 1971

CARRIE F. ANDRACKI et al.)
)
)
 v.) # 71-376
)
)
 ENVIRONMENTAL PROTECTION AGENCY)

Opinion and Order of the Board (by Mr. Currie):

The petitioners seek reconsideration of our denial (Andracki v. EPA, # 71-149, September 2, 1971) of their request for a variance to permit a connection to an overloaded treatment plant in the North Shore Sanitary District. The reasons for our action are explained in our earlier opinion, and no new facts are alleged that would cause us to take the unusual step of trying the case over a second time. We note that a petition is now pending before us in which the District seeks partial relaxation of the sewer connection order on the ground of alleged improvements to the treatment processes. Such a case as is alleged by the present petitioners would clearly merit strong consideration from the District in the event its own petition should be granted. The petition in # 71-376 is hereby dismissed.

I, Christan Moffett, Acting Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order this 9th day of December, 1971.

Christan Moffett
