Opinion and Order of the Board (by Mr. Currie):

This variance petition seeks relief until July 31, 1972, when a privately owned water supply system is to be tied into a municipal system in New Lenox, Will County. The basis for the request is to avoid duplication of expenditures. The motive is worthy, but we cannot tell what the regulation is from which a variance is sought or what harm the public may suffer in the interim if the variance is granted. The petition is inadequate under our procedural rules and does not allege facts sufficient if proved to justify the grant of a variance. It is hereby dismissed without prejudice to the filing of a more complete petition.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order this 17th day of February, 1972 by a vote of 5-0.
