NOW COMES the Complainant, PEOPLE OF THE STATE OF ILLINOIS, by JAMES E. RYAN, Attorney General of the State of Illinois, and requests relief from the hearing requirement in the above captioned matter. In support thereof, the Complainant states as follows:

1. On December 17, 2001, a Stipulation and Proposal for Settlement in this case was filed before the Board.
2. Section 31 of the Environmental Protection Act, 415 ILCS 5/31 (2000) ("Act") provides, in pertinent part, as follows:

Notwithstanding the provisions of subdivision (1) of this subsection (c), whenever a complaint has been filed on behalf of the Agency or by the People of the State of Illinois, the parties may file with the Board a stipulation and proposal for settlement accompanied by a request for relief for the requirement of a hearing pursuant to subdivision (1). Unless the Board, in its discretion, concludes that a hearing will be held, the Board shall cause notice of the stipulation, proposal and request for relief to be published and sent in the same manner as is required for hearing

pursuant to subdivision (1) of this subsection. The notice shall include a statement that any person may file a written demand for hearing within 21 days after receiving the notice. 415 ILCS 5/31(c) (2) (2000).

3. No hearing is currently scheduled in the instant case.

4. The Complainant requests the relief conferred by Section 31(c) (2) of the Act.

**STIPULATION AND PROPOSAL FOR SETTLEMENT**

Complainant, PEOPLE OF THE STATE OF ILLINOIS, by JAMES E. RYAN, Attorney General of the State of Illinois, at the request of the Illinois Environmental Protection Agency ("Illinois EPA"), and Respondents, CAMELOT ENTERPRISES, INC., ("Camelot"), STEPHEN EINFELDT, individually, and as president of Camelot, and IVEN JOHNSON, individually, and as co-owner of Camelot, do hereby agree to this Stipulation and Proposal for Settlement ("Agreement"). The parties further stipulate that this statement of alleged facts is made and agreed upon for purposes of settlement only and that neither the fact that a party has entered into this Agreement, nor any of the alleged facts

stipulated herein, shall be introduced into evidence in this or any other proceeding except to enforce the terms of this Agreement. Notwithstanding the previous sentence, this Stipulation and Proposal for Settlement and any Illinois Pollution Control Board ("Board") order accepting same may be used in any future enforcement action by Complainant as evidence of a past adjudication of the Illinois Environmental Protection Act ("Act"), 415 ILCS 5/1 *et seq.* (2000), for purposes of Sections 39(i) and 42(h) of the Act, 415 ILCS 5/39(i), 42(h) (2000). This Agreement shall be null and void unless the Board approves and disposes of this matter on each and every one of the terms and conditions of the settlement set forth herein.

I.

**JURISDICTION**

The Board has jurisdiction of the subject matter herein and of the parties consenting hereto pursuant to the Act, 415 ILCS 5/1 *et seq.* (2000).

II.

**AUTHORIZATION**

The undersigned representative for each party certifies that he or she is fully authorized by the party whom he or she

represents to enter into the terms of this Agreement and to legally bind them to it.

### III.

#### APPLICABILITY

This Agreement shall apply to and be binding upon the Complainant and Respondents, and any officer, director, agent and employee or servant of Respondents, as well as Respondents' successors and assigns. Respondents shall not raise as a defense to any enforcement action taken pursuant to this Agreement the failure of their officers, directors, agents, servants or employees to take such action as shall be required to comply with the provisions of this Agreement.

### IV.

#### STATEMENT OF FACTS

##### A. Parties

1. The Attorney General of the State of Illinois brought this action on his own motion and at the request of the Illinois EPA, and pursuant to the statutory authority vested in him under Section 31 of the Act, 415 ILCS 5/31 (2000).

2. The Illinois EPA is an administrative agency in the executive branch of the State government of Illinois, created

pursuant to Section 4 of the Act, 415 ILCS 5/4 (2000), and is charged, *inter alia*, with the duty of enforcing the Act.

3. At all times relevant to the Complaint and this Stipulation and this Proposal for Settlement, Respondent, Camelot Enterprises, Inc. was an Illinois corporation.

4. At all times relevant to the Complaint and this Stipulation and Proposal for Settlement, Respondents Iven Johnson ("Johnson") and Stephen Einfeldt ("Einfeldt") were Illinois citizens, co-owners of Camelot, and jointly in charge of the day-to-day operations of Camelot.

5. Respondents have been engaged in construction at a site known as the Northern Lights subdivision which is located in the Village of Bradley, Kankakee County, Illinois ("site").

6. Neither Respondent Camelot, nor Respondents Einfeldt and Johnson had a National Pollutant Discharge Elimination System ("NPDES") stormwater discharge permit prior to beginning construction at the site.

**B. Alleged Violations**

1. In its Complaint, Complainant alleges the following violations of the Act:

Count I: NPDES permit violations, in violation of

Section 12(f) of the Act, 415 ILCS 5/12(f) (2000), and 35 Ill. Adm. Code 309.102(a).

2. Respondents admit the alleged violations.

v.

**IMPACT ON THE PUBLIC RESULTING FROM ALLEGED NON-COMPLIANCE**

Section 33(c) of the Act, 415 ILCS 5/33(c) (2000), provides as follows:

In making its orders and determinations, the Board shall take into consideration all the facts and circumstances bearing upon the reasonableness of the emissions, discharges, or deposits involved including, but not limited to:

1. the character and degree of injury to, or interference with the protection of the health, general welfare and physical property of the people;
2. the social and economic value of the pollution source;
3. the suitability or unsuitability of the pollution source to the area in which it is located, including the question of priority of location in the area involved;
4. the technical practicability and economic reasonableness of reducing or eliminating the emissions, discharges or deposits resulting from such pollution source; and
5. any subsequent compliance.

In response to these factors, the parties state the following:

1. Although human health and the environment were potentially threatened and the Illinois EPA's information gathering responsibilities hindered by Respondents' unpermitted construction activities, there is no evidence of actual negative impact to the public resulting from Respondents' alleged noncompliance.

2. There is social and economic benefit to the construction site.

3. The construction was suitable for the area in which it occurred.

4. Obtaining a storm water permit prior to construction at the site is both technically practicable and economically reasonable.

5. Respondents have subsequently complied with the Act and the Board Regulations.

## VI.

### CONSIDERATION OF SECTION 42(h) FACTORS

Section 42(h) of the Act, 415 ILCS 5/42(h) (2000), provides as follows:

In determining the appropriate civil penalty to be

imposed under . . . this Section, the Board is authorized to consider any matters of record in mitigation or aggravation of penalty, including but not limited to the following factors:

1. the duration and gravity of the violation;
2. the presence or absence of due diligence on the part of the violator in attempting to comply with requirements of this Act and regulations thereunder or to secure relief therefrom as provided by this Act;
3. any economic benefits accrued by the violator because of delay in compliance with requirements;
4. the amount of monetary penalty which will serve to deter further violations by the violator and to otherwise aid in enhancing voluntary compliance with this Act by the violator and other persons similarly subject to the Act; and
5. the number, proximity in time, and gravity of previously adjudicated violations of this Act by the violator.

In response to these factors, the parties state as follows:

1. The Respondents are alleged to have failed to obtain a permit prior to beginning construction activities at the site.

The violations began on or around February 1999. Respondents filed the proper permit application on December 15, 1999.

2. Complainant alleges that Respondents were not diligent in attempting to come back into compliance with the Act, Board Regulations and applicable Federal regulations.

3. Complainant alleges that any economic benefit Respondents realized from their noncompliance is unquantifiable but is believed to be nominal.

4. Complainant has determined that a penalty of Ten Thousand Dollars (\$10,000.00) will serve to deter further violations and aid in future voluntary compliance with the Act and Board regulations.

5. To Complainant's knowledge, Respondents have no previously adjudicated violations of the Act.

## VII.
