Chicago, IL 60601

GROUP PC#1

Dear Mr. Halloran,

This letter is in reference to Marshall Lowe vs County Board of McHenry (PCB03-221).

We are looking forward to the resolution of this situation. I am writing to request that the hearing be held in the Cary area, preferably at a school in the evening. The location of the property in question is in Cary and is of major interest to the citizens of this community as well as Marshall Lowe who also lives here.

Having the hearing in Woodstock would be an inconvenience if not a hardship on many who are interested in attending and those who must attend. I would add additional time and miles for you as well.

Thank you for your consideration.

Sincerely,

Yvonne Alexander
56 Oak Valley Dr.
Cary, IL 60013

JUL 7 2003

STATE OF ILLINOIS
Pollution Control Board

ATTN: Mr. Bradley Halloran,

Please hold the hearings on this matter at a Cary school and in the evening so that the people who live in the area nearest the proposed transfer station and who would be most effected will be able to attend.

We would greatly appreciate your consideration of a Cary location. We are located at the far eastern portion of the county and just over 1000 feet from the proposed transfer station. To travel to Woodstock is approximately 40 minute drive and sometimes even more depending on traffic and construction.

Thanking you in advance for your consideration.

Betty Ann Post , President Bright Oaks Homeowners Assoc.
66 Oak Valley Dr.
Cary, IL 60013

Dear Mr. Halloran,

I am writing you this letter as a concerned citizen of Lake Killarney; a subdivision adjacent to the properties affected most by the proposed Lowe waste transfer station in southeastern McHenry County.

I hope you will consider holding the upcoming hearings, on the proposed waste transfer station, in the village of Cary or perhaps the Algonquin township offices. Either of these locations would be more convenient to the people affected by the proposed waste transfer station. Rather than Woodstock, which would create a hardship for many of the citizens of Cary, Bright Oaks and Lake Killarney who would like to attend these hearings.

Sincerely,

Patricia G. O'Brien
6311 Londonderry Drive
Cary, IL 60013

P.S.

Please make it convenient for the citizens of Cary, maybe one of the local schools and in the evening.
Thank you!

FAX # 312-814-3669

Dear Mr. Halloran,

We are writing you with a request to hold the hearing for the Waste Transfer Station, PCB 03-221 in the town of Cary.

As senior citizens and caregivers to an aging parent, having the hearing in Cary is the only way in which we can attend. We have great concern regarding this transfer station and wish to be involved in decisions regarding it.

Please give those of us who cannot travel out of the area an opportunity to find out what is being planned for our neighborhood.

Thank you.

Very truly yours,

Nancy and Dennis Daley

RE HEARING FOR MATTER NO. PCB 03-221
WASTE TRANSFER STATION - MCHENRY, IL

Dear Mr. Halloran

As the property manager for the 422-unit Bright Oaks Association just east of the proposed waste transfer station, I would like to petition the Illinois Pollution Control Board, on behalf of the residents of our Association, to hold the hearing for this matter in Cary, Illinois.

Many of our people are elderly and find it difficult to travel any great distance. However, their life styles and property values are at stake here, so they feel they must be present at the hearing.

Please take the citizens of Cary into consideration when making your decision. Since we will have to live with what you decide, we feel it only appropriate that we watch it happen.

Sincerely,

FOX VALLEY MANAGEMENT CO.

Lynn Hackett, Property Manager

FAX NO. 312-814-3669RE HEARING REGARDING MATTER NO. PCB 03-221
WASTE TRANSFER STATION - MCHENRY COUNTY, IL

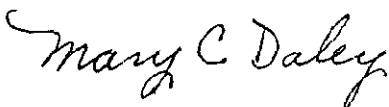

Dear Mr. Halloran

I am a senior citizen and live close to the proposed garbage transfer station. I attended all the original hearings on this transfer station and traveled to Woodstock, Illinois every day. This proved to be an exhausting experience.

I sincerely request that you consider having the planned hearing for this matter in the town of Cary whose citizens will be most affected. We have many schools that could accommodate the necessary people.

Thank you

Sincerely

Mary C. Daley

Suite 11 - 500
100 West Randolph Street
Chicago, Illinois 60601

Dear Mr. Halloran,

I am writing you this letter as a concerned citizen of Lake Killarney; a subdivision adjacent to the properties affected most by the proposed Lowe waste transfer station in southeastern McHenry County.

I hope you will consider holding the upcoming hearings, on the proposed waste transfer station, in the village of Cary or perhaps the Algonquin township offices. Either of these locations would be more convenient to the people affected by the proposed waste transfer station. Rather than Woodstock, which would create a hardship for many of the citizens of Cary, Bright Oaks and Lake Killarney who would like to attend these hearings.

Sincerely,

A handwritten signature in black ink, appearing to be 'B. Halloran', written over a horizontal line.

Dear Mr. Halloran

I would be very interested in attending the next meeting regarding the location of the waste retention station in Cary.

However, unless the meeting is held in Cary, I will probably not be able to attend. I would assume this to be the case for many residents who will be affected by this site.

So please if at all possible hold this meeting in the town it will most effect.

Thank you
