Re: 0910200013 -- Kankakee County
United Disposal of Bradley, Inc.
Date Application Received: March 31, 2003
Log No. 2003-101
Permit File

Dear Mr. Karlock and Mr. Watson:

This letter responds to the application for permit to modify the operating permit you submitted on the date shown above.

The subject application for permit is deemed not to have been filed because it fails to set forth information, documents or authorizations as required pursuant to Title 35, Illinois Administrative Code (hereinafter 35 Ill. Adm. Code), Section 807.205. This action may be considered a denial for purposes of review pursuant to Section 40 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/40).

Section 807.205(f) of 35 Ill. Adm. Code states that an application for permit shall not be deemed filed until the Illinois EPA has received all information, documents and authorizations in the form and with the contents required by the Part 807 rules.

The following deficiency is noted at this time:

1. You failed to provide proof of local siting approval as required pursuant to Section 39(c) of the Act (415 ILCS 5/39(c)). Section 807.207(a) provides in part that the Illinois EPA shall not grant any permit unless the applicant submits adequate proof that the solid waste management site will be developed, modified or operated so as not to cause a violation of the Act or Part 807 rules. Your application only addresses the revision of your operating permit. An application for supplemental permit to revise the operating permit is not the

appropriate method to remove the condition in question (i.e., Condition #9 of the operating permit), since there must also be a corresponding change to the development (DE) permit. The nature of the request made in the permit application requires that the applicant provide proof of local siting approval as described in Section 39.2 of the Act (415 ILCS 5/39.2). The resolution from the Village of Bradley included in your application does not conform to the procedures in Section 39.2 of the Act and therefore is not sufficient proof of siting approval as required by Section 39(c) of the Act.

Due to the deficiency noted above the Illinois EPA has not performed a technical review of the application. The technical review may reveal that the Illinois EPA needs additional information, or result in denial of permit.

Within 35 days after the date of mailing of the Illinois EPA's final decision, the applicant may petition for a hearing before the Illinois Pollution Control Board to contest the decision of the Illinois EPA, however, the 35-day period for petitioning for a hearing may be extended for a period of time not to exceed 90 days by written notice provided to the Board from the applicant and the Illinois EPA within the 35-day initial appeal period.

If you wish to seek an extension of the time period for petitioning for a hearing, send a request for such an extension to John Kim, Assistant Counsel, Illinois EPA, 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276.

Any resubmission of the permit application should be a complete application without referencing previous submissions. Any questions or requests for assistance may be directed to Sallie Springer at 217/524-3293 or the address above.

Sincerely,

Joyce L. Munie, P.E.

Re: Application for Modification to Operation Permit 1994-30-OP

Dear Madam or Sir:

I am enclosing a General Application (LPC-PA1) form seeking to modify a portion of Special Condition #9 of the above referenced operating permit. The enclosed application requests the deletion of the following sentence currently included in Special Condition #9: "No waste generated outside the municipal boundaries of the Village of Bradley may be accepted at this facility." This is the only modification to the permit being requested in the enclosed application. The application seeks no modification to the physical structure or property boundaries of the currently permitted facility.

This facility is located in the municipal boundaries of the Village of Bradley, Illinois. Although United Disposal of Bradley, Inc. can find no legal requirement that it seek approval of the modification requested in the enclosed application from the Village of Bradley, it has sought and received, by unanimous resolution of the Village of Bradley, the Village's support for the requested operating permit modification. I am enclosing a copy of that resolution with the permit application.

Please contact me upon your receipt and initial review of the enclosed application to let me know whether it is complete. Additionally, if you have any questions, please do not hesitate to contact me. I look forward to discussing this application with you in the near future.

Sincerely,

Michael Watson
President
