

Michael D. Grant

Experience

Environmental Protection Specialist IV:

January 1993 - Present

Serve as Assistant Regional Manager. Job duties include supervision of Agency personnel in all aspects of RCRA (laws regulating the handling and management of hazardous waste) related activities, including review and commenting on all RCRA inspection reports prior to submittal to the main office. Have been responsible for training new employees on conducting RCRA inspections and the proper way to write reports and correspondence.

Designated Regional Criminal Investigator for last 8 years. This entails working alleged environmental crimes with local, state and federal law enforcement personnel.

In 1992, designated project manager for the outside consulting company who was retained by the Agency to oversee the facility's compliance pursuant to the 1991 and 1995 Consent Decree requirements.

Designated Acting Regional Manager in the Regional Manager's absence since 1989.

Environmental Protection Specialist III:

September 1987 - January 1993

Temporarily assigned as Assistant Regional Manager duties from March 1989 - January 1993. (See above) Lead inspector for the region. Also assisted the Assistant Regional Manager on QA/QC for RCRA inspections completed by the Collinsville and Marion offices.

Environmental Protection Specialist II:

February 1986 - September 1987

Conduct RCRA inspections, which entails: evaluating compliance efforts of the regulated community during on-site visits and through correspondence. This also includes completing the inspection write-ups, memos, letters, conducting sampling and attending enforcement proceedings. During the period as an EPS II, conducted approximately 90% of the Interim Status Standard Inspections for the Region.

Environmental Protection Specialist I:

December 1984 - February 1986

Independently conduct and assist in RCRA inspections which entails: inspection write-ups, memos, letters, conducting sampling, attending pre-enforcement conferences, and making decisions as to the adequacy of facilities efforts to comply with the regulations.

PCB 02477

Life Science Career Trainee:

June 1984 – December 1984

Assist in RCRA inspections which entails: drafting inspection write-ups, memos, letters to the facilities, tracking logs, sampling, technical referrals for enforcement, pre-enforcement conferences and follow-up inspections. Also, previous experience allowed me to input all relevant data pertaining to these inspections into the computer inventory system.

Contractual Clerk II:

September 1983 – May 1984

Assisted in preparing tracking forms for permit monitoring. Researched and compiled data necessary for total systems conversion, including editing and updating. March began working in FOS assigning ID numbers and preparing tracking logs for all RCRA inspected facilities.
