RE: Case PCB-03-235
United Disposal Transfer Station

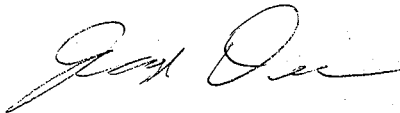

Dear Sirs;

We are writing to you in reference to the Pollution Control Board matter referenced above which concerns permitting a United Disposal Transfer Station to be located in Bradley, Illinois.

We feel that the need for an alternate refuse site for the solid waste is largely needed in the community, for health, safety and economic reasons. Our only landfill in the area has been shutdown several times in the last year due to labor strikes and excessive winds, leaving us no alternative site to dump solid waste. The current landfill is also preparing to close indefinitely. These issues concern us greatly. We are supportive of the United Disposal Transfer site and asking for your consideration on these issues when you deliberate on this case.

Your time and consideration are greatly appreciated.

Sincerely,

Joseph Deno
President, ABC Disposal
