PC#11

I am sending this letter in support of United's transfer station permit modification. The case number is PCB-03-235.

I would like you to know I live 5 houses from United Disposal. I have been in the neighborhood for nearly 40 years, have been neighbors with the Watson's for over 35 years since the 1960's, and have lived to the transfer station for 23 years. As you can tell I was here long before and long after the start of their business. It is nice to see local hard working individuals make good. I have never had any problems with the facility. They are good neighbors to have and I want the Watson's to get their permit changed so they can get on with the business at hand.

Sincerely,
Allen Green

Allen Green
