RECOMMENDATION

Now Comes the Illinois Environmental Protection Agency ("Illinois EPA") by James Allen Day, one of its attorneys, and pursuant to Section 125.204 of the Illinois Pollution Control Board's (Board) regulations files the following Recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.

- 1) On December 31, 2003, the Illinois EPA received a request from Holland Energy, LLC-Beecher City for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204, and noted the request as log number TC-36-02. (Exhibit A)
- 2) The applicant's address is: Holland Energy, LLC
R.R. 3 Box 270A
Beecher City, Illinois 62414-0065
- 3) The **water** pollution control facilities in this request are located at Section 16, Township 9 North, Range 4 East of the 3rd Principal Meridian in Shelby County, Illinois at the above street address and consist of the following:

A wastewater collection and treatment system consisting of a 32 ft. diameter clarifier, clarifier coagulant feed system, clarifier polymer feed system, 41 cubic

foot filter press, filter press feed pumps, sludge polymer feed system, 19,000 gallon inclined plate oil / water separator, sludge sump pumps, wastewater sump and pumps, treated effluent sump and pumps, turbine building sump and pumps, maintenance area sump and pump, HRSG 1 area sump and pump, HRSG sump and pump, lab and water treatment building sump and pumps, anhydrous ammonia area sump and pump, circulating water / chemical feed area sump and pump, water treatment area sump and pump, HRSG1 blowdown drain sump and pumps, HRSG2 blowdown drain sump and pumps, auxiliary boiler blowdown sump and pumps, and other pumps and appurtenances necessary for the collection and treatment of plant wastewaters. (These facilities are further described in Exhibit A.)

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2000), defines “pollution control facilities” as: “any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or **water** pollution ...or (b) treating, pretreating, modifying or disposing of any **potential solid**, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.”
5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5 (2000).

6. Based on the information in the application and the purpose of the facilities, to treat process waste water prior to discharge, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200. Therefore, the facilities are eligible for tax certification from the Board.
7. Therefore, the Illinois EPA recommends that the Board issue the requested tax certification.
