**General Comments:**

On July 2, 2004 at 09:45 A.M., I conducted an inspection at the Edward Cain Roofing Company, located at 1102 North County Road 900 N, Tolono, Illinois 61880. This inspection was conducted in response to a complaint from IEPA, Champaign Region BOA, alleging that open dumping and open burning were occurring on this site. The purpose of this inspection was to determine regulatory status and evaluate compliance with the Illinois Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). The inspection consisted of walking around the site and taking pictures, no one was present to represent the property owner. The weather was sunny, the temperature 83 degrees.

The Roofing Company is owned by Mr. Edward Cain, 807 West Church Street, Savoy, Illinois 61874. The property is owned by Mr. & Ms Edward Cain, 807 West Church Street, Savoy, Illinois 61874.

**Findings:**

When I arrived on the property I entered the property and traveled to the north end of the lot. I saw an area measuring approximately 20' x 20' where the vegetation and ground had been charred and was black from open burning (see photos #2 and #5). The blackened area was covered by residue from open burning consisting of ashes, partially burned and charred dimensional lumber, a heat scorched metal frame with springs from furniture, metal containers, heat scorched roofing nails, and partially burned shingles (see photos #3 and #4). There was also a pile of dimensional lumber piled northwest of the burn pile (see photo #3). At the southwest corner of the burn area I saw a pile of unburned shingles, measuring approximately 4' x 4' x 1' which judging by their condition (torn, piled in a pile) were waste shingles (see photo #1). I left the site at 09:55 A.M.

Cain's Roofing had previously received a Non-Compliance Advisory (NCA) from the Champaign BOA dated August 23, 1999 and answered in a letter dated September 1, 1999, signed by Mr. Cain, stating that they would not open burn again (NCA and letter enclosed).

The local fire department filed two incident reports to the State Fire Marshall's Office dated 06/23 & 06/30, 2004 stating that fires containing burning roofing materials consisting of wood shingles, tar buckets, tar paper, plastic, metal, and aerosol cans had been observed at this property and extinguished on those dates (incident reports attached).

I have been unable to contact Mr. Cain for his comments on the open dumping/burning incident at his facility.

Dear Mr. Justice,

We received a Non-Compliance Advisory Letter, ID #019 826 OBV, about a violation on July 20, 1999. We were burning cardboard on our lot at the time and did not realize this was violating any law. We have stopped all burning on the property and will not burn again now that we realize it is not legal.

Sincerely,
