RE: #R04-22/23

PC#10

Dear Board Members,

As an interested person in the proposed amendments in the proposed amendments of Part 732 and Part 734, I hereby request additional hearings which will certainly impact tank owners many of them are of limited means. I am distressed that an economic impact statement has not been prepared as stipulated by law. There are many other provisions of the proposed amendments that are certainly not reasonable nor objective. I am also disturbed that some of the comments I made before the Board in previous hearings were completely ignored. I hope to get another opportunity to speak from one who has 16 years experience in the environmental field.
