**NARRATIVE INSPECTION REPORT DOCUMENT**  
**OPEN DUMP SITE**

Date of Inspection: April 18, 2005

Inspector: Don Terry

Site Code: 077 810 5010

County: Jackson

Site Name: Murphysboro / Gary Clover

Time: 10:15 am – 10:26 am

Location: 1336 Hoffman Rd, Murphysboro

Owner of Property: Gary Clover

Volume of Waste found at site: 711 cu / yds

**GENERAL REMARKS**

During the above date and time, I conducted an inspection of the site listed above as a follow up to one conducted by this office on December 19, 2003 to determine if the site had been brought back into compliance. I was accompanied on this inspection by Bart Hagston of the Jackson County Health Department. During the inspection, continuing violations of open dumping were observed.

The site is owned by Mr. Gary Clover, who owns and operates Gary D. Clover's Roofing from this site. Upon arriving at the site we went directly to the house and knocked on the door several times. No one answered.

We traveled along a dirt driveway that wound to the west and south of the house (See sketch). I observed an area west of the house that appeared to be a mobile home which is being demolished (Photo #1, See sketch). Demolition debris had been open dumped in and around the mobile home.

West of the mobile home demolition I observed a collection of white goods which had been open dumped (Photo #2, See sketch).

I traveled south along the driveway and to the west I observed an area containing four abandoned vehicles, plywood, scrap metal and other not readily identifiable materials which had been open dumped (Photos #3, See sketch).

Continuing south along the driveway, I observed an abandoned school bus (Photo #4, See sketch). The bus' rear door was open exposing the contents to the elements.

South of the bus, on the west side of the driveway, I observed waste I had earlier observed from the Photo #3 position (See sketch). From my current position I observed that the waste in this area consisted of dimensional lumber, scrap metal, vehicles, and other waste not easily identifiable (Photo #5, See sketch).

Page 2

077 810 5010

April 18, 2005

I continued south along the driveway. I observed an area containing six abandoned mobile homes in various states of demolition (Photos #6 & #8, See sketch).

To the northwest of these abandoned mobile homes, I observed a collection of three abandoned vehicles (Photo #7, See sketch).

South of the area where I observed the abandoned mobile homes, I observed approximately ten abandoned vehicles littering the site (Photos #9 & #11, See sketch). To the north of these abandoned vehicles, I observed a pile of approximately 100 waste tires and metal rims (Photo #10, See sketch).

Southeast of the tires, I observed an area containing an abandoned truck, mobile home and trailer (Photo #12, See sketch).

Most of the materials, mobile homes and vehicles observed during this inspection appeared to be the same as observed during my December 19, 2003 inspection. **At the time of the inspection, the vehicles, mobile homes and other materials were not in use, were not useable in their current condition, and were not stored in such a way as to protect any future use.**

The total amount of waste observed during this inspection was approximately 711 cu / yds. My inspection ended at approximately 10:26 am.

**Continuing Violations Observed:**

**Item #5(21)(a): Cause or allow open dumping; Item #8(21)(p)(1 and 7): Cause or allow the open dumping of any waste in a manner which results in any of the following occurrences at the dump site: (1) Litter; (7) Deposition of general construction or demolition debris; or clean construction or demolition debris:** During the inspection open dumping was observed that resulted in litter and the deposition of general construction or demolition debris; or clean construction or demolition debris at the site.

**Item #6(21)(d)(1): Conduct any waste-storage, waste-treatment, or waste-disposal operation: Without a permit; Item #6(21)(d)(2): Conduct any waste-storage, waste-treatment, or waste-disposal operation: In violation of any regulations or standards adopted by the Board:** There is still no record of Mr. Clover having applied for or having received a permit from the Agency to conduct a waste-storage, waste-treatment, or waste-disposal operation at this location. During the inspection violations of regulations and standards adopted by the Board regarding daily cover and litter control were observed.

**Item #7(21)(e): Dispose, treat, store, or abandon any waste, or transport any waste into the State at/to sites not meeting requirements of the Act:** Due to the quantity and type of waste observed, it would be reasonable to assume that much of the waste was brought onto the site from other locations for the purpose of disposal.

April 18, 2005

**Item #9(55)(a)(1): No person shall: Cause or allow open dumping of any used or waste tire: During the inspection approximately 100 waste tires were observed to have been open dumped on the site.**

**Item #10(812.101)(a): Failure to submit an application for a permit to develop and operate a landfill;  
Item #15(807.201): Failure to obtain a Developmental Permit to operate a solid waste management site; Item #15(807.202): Failure to obtain an Operational Permit to operate a solid waste management site: There is no record of Mr. Clover having applied for or having received a permit to develop or operate a landfill or a waste management site.**
