STIPULATION AND PROPOSAL FOR SETTLEMENT

Complainant, PEOPLE OF THE STATE OF ILLINOIS, by LISA MADIGAN, Attorney General of the State of Illinois, the Illinois Environmental Protection Agency ("Illinois EPA"), and Barry Hayden d/b/a Hayden Properties ("Respondent"), have agreed to the making of this Stipulation and Proposal for Settlement ("Stipulation") and submit it to the Illinois Pollution Control Board ("Board") for approval. The parties agree that the statement of facts contained herein represents a fair summary of the evidence and testimony which would be introduced by the parties if a hearing were held. The parties further stipulate that this statement of facts is made and agreed upon for purposes of settlement only and that neither the fact that a party has entered into this Stipulation, nor any of the facts stipulated

herein, shall be introduced into evidence in any other proceeding regarding the claims asserted in the Complaint except as otherwise provided herein. If the Board approves and enters this Stipulation, Respondent agrees to be bound by the Stipulation and Board Order and not to contest their validity in any subsequent proceeding to implement or enforce their terms.

#### **I. JURISDICTION**

The Board has jurisdiction of the subject matter herein and of the parties consenting hereto pursuant to the Illinois Environmental Protection Act ("Act"), 415 ILCS 5/1 *et seq.* (2004).

#### **II. AUTHORIZATION**

The undersigned representatives for each party certify that they are fully authorized by the party whom they represent to enter into the terms and conditions of this Stipulation and to legally bind them to it.

### III. STATEMENT OF FACTS

#### A. Parties

1. On June 14, 2005, a Complaint was filed on behalf of the People of the State of Illinois by Lisa Madigan, Attorney General of the State of Illinois, on her own motion and upon the request of the Illinois EPA, pursuant to Section 31 of the Act, 415 ILCS 5/31 (2004), against the Respondent.

2. The Illinois EPA is an administrative agency of the State of Illinois, created pursuant to Section 4 of the Act, 415 ILCS 5/4 (2004).

3. At all times relevant to the Complaint, Respondent was and is a developer doing business as "Hayden Properties."

#### B. Site Description

1. In or about September 2003, the Respondent commenced construction of homes in the Cedar Creek Subdivision near State route 158 and Biehl Road in St. Clair County, Illinois ("site").

2. Barry Hayden had not obtained coverage under the State's general storm water NPDES permit.

3. On March 11, 2004, the Illinois EPA inspected the site. Five homes were under construction on a site of less than 5 acres and there were no adequate erosion controls in place.

4. On March 18, 2004, the Respondent submitted a notice of intent for coverage under the State's general storm water NPDES permit to the Illinois EPA, which granted authorization on April 19, 2004.

In July 2005, Illinois EPA performed a follow-up investigation of the site. Sedimentation from runoff was on the street and entering the creek running through the development.

5. On August 1, 2005, St. Clair County Soil & Water Conservation District performed a follow up investigation at the site. The documentation required to be on site was not available. Silt fences had been installed on individual lots under construction, vacant lots and in drainage swales or channels. Rip rap had been delivered and was being installed in the main drainage channel from where it begins to where it exits the site.

#### **C. Allegations of Non-Compliance**

Complainant contends that the Respondent has violated the following provisions of the Act and Board regulations:

Count I:       **Section 12(a) of the Act, 415 ILCS 5/12(a) (2004).**

Count II:       **Section 12(f) of the Act, 415 ILCS 5/12(f) (2004), and 35 Ill. Adm. Code 309.102(a).**

**D. Admission of Violations**

The Respondent admits to the violations alleged in the Complaint filed in this matter and referenced within Section III.C herein.

**E. Compliance Activities to Date**

1. On August 1, 2005, St. Clair County Soil & Water Conservation District performed a follow up investigation at the site.
2. Silt fences had been installed on individual lots under construction, vacant lots and in drainage swales or channels. Additional measures, including straw bale dikes are planned in the areas of concentrated flow.
3. Rip rap had been delivered and was being installed in the main drainage channel from where it begins to where it exits the site. The rip rap structures at the storm sewer outfalls are planned to be improved and a rip rap check dam will be installed at the end of Augies Way.

#### IV. APPLICABILITY

This Stipulation shall apply to and be binding upon the Complainant and the Respondent, and any officer, director, agent, or employee of the Respondent, as well as any successors or assigns of the Respondent. The Respondent shall not raise as a defense to any enforcement action taken pursuant to this Stipulation the failure of any of its officers, directors, agents, employees or successors or assigns to take such action as shall be required to comply with the provisions of this Stipulation.

1. No change in ownership, corporate status or operator of the facility shall in any way alter the responsibilities of the Respondent under this Stipulation and Proposal for Settlement. In the event of any conveyance of title, easement or other interest in a parcel, the Respondent shall continue to be bound by and remain liable for performance of all obligations under this Stipulation until construction is completed and the parcel is stabilized for stormwater runoff.

2. The Respondent shall notify each contractor to be retained to perform work required by any Order accepting and adopting the terms of this Stipulation of each of the requirements of said

Order relevant to the activities to be performed by that contractor, including all relevant work schedules and reporting deadlines, and shall provide a copy of this Stipulation and any Order accepting and adopting the terms of this Stipulation to each contractor already retained no later than 30 days after the date of adoption of this Stipulation. In addition, the Respondent shall provide copies of all schedules for implementation of the provisions of this Stipulation to the prime vendor(s) supplying the control technology systems and other equipment required by any Order accepting and adopting the terms of this Stipulation.

#### **V.COMPLIANCE WITH OTHER LAWS AND REGULATIONS**

This Stipulation in no way affects the responsibilities of the Respondent to comply with any other federal, state or local laws or regulations including, but not limited to, the Act and the Board regulations, 35 Ill. Adm. Code, Subtitles A through H.

#### **VI.IMPACT ON THE PUBLIC RESULTING FROM ALLEGED NON-COMPLIANCE**

Section 33(c) of the Act, 415 ILCS 5/33(c) (2004), provides as follows:

In making its orders and determinations, the Board shall take into consideration all the facts and circumstances bearing upon the reasonableness of the

emissions, discharges, or deposits involved including, but not limited to:

1. the character and degree of injury to, or interference with the protection of the health, general welfare and physical property of the people;
2. the social and economic value of the pollution source;
3. the suitability or unsuitability of the pollution source to the area in which it is located, including the question of priority of location in the area involved;
4. the technical practicability and economic reasonableness of reducing or eliminating the emissions, discharges or deposits resulting from such pollution source; and
5. any subsequent compliance.

In response to these factors, the parties state the following:

1. The environment was threatened by not implementing stormwater pollution control measures.
2. There is social and economic benefit to the site.
3. Construction at the site is suitable for the area in which it occurred.
4. Obtaining a permit prior to construction at the site and compliance with its terms is both technically practicable and economically reasonable.

5. Respondent moved towards subsequently complying with the Act and the Board Regulations.

#### VII. CONSIDERATION OF SECTION 42(h) FACTORS

Section 42(h) of the Act, 415 ILCS 5/42(h)(2004), provides as follows:

In determining the appropriate civil penalty to be imposed under . . . this Section, the Board is authorized to consider any matters of record in mitigation or aggravation of penalty, including but not limited to the following factors:

1. the duration and gravity of the violation;
2. the presence or absence of due diligence on the part of the respondent in attempting to comply with requirements of this Act and regulations thereunder or to secure relief therefrom as provided by this Act;
3. any economic benefits accrued by the respondent because of delay in compliance with requirements, in which case the economic benefits shall be determined by the lowest cost alternative for achieving compliance;
4. the amount of monetary penalty which will serve to deter further violations by the respondent and to otherwise aid in enhancing voluntary compliance with this Act by the respondent and other persons similarly subject to the Act;
5. the number, proximity in time, and gravity of previously adjudicated violations of this Act by the respondent;
6. whether the respondent voluntarily self-disclosed, in accordance with subsection i of this Section, the non-compliance to the Agency; and

7. whether the respondent has agreed to undertake a "supplemental environmental project," which means an environmentally beneficial project that a respondent agrees to undertake in settlement of an enforcement action brought under this Act, but which the respondent is not otherwise legally required to perform.

In response to these factors, the parties state as follows:

1. The Respondent failed to obtain an NPDES permit for construction at the site prior to beginning construction. The violations began on or around March 11, 2004. The Respondent received an NPDES permit from Illinois EPA on April 19, 2004. The remaining violations are in the process of being resolved.

2. Respondent was diligent in obtaining an NPDES permit, once the Illinois EPA notified it of its noncompliance. The Respondent has recently been diligent in installing stormwater pollution prevention measures to reduce silt and sediment runoff.

3. Economic benefits were accrued by the Respondent because of delay in compliance with requirements including installing silt fences, bales of hay, and rip rap.

4. Complainant has determined, based upon the specific facts of this matter, that a penalty of Three Thousand Five Hundred Dollars (\$3,500.00) will serve to deter further violations and aid in future voluntary compliance with the Act and Board regulations.

5. To Complainant's knowledge, Respondent has no previously adjudicated violations of the Act
6. Self-disclosure is not at issue in this matter
7. The settlement of this matter does not include a supplemental environmental project.

#### VIII. TERMS OF SETTLEMENT

#### **B. Compliance Plan**

1. The Respondent shall maintain all required documentation on site at all times until construction on all parcels is completed and the site is stabilized. The required documentation includes the NPDES permit, the NPDES permit cover letter, the Stormwater Pollution Prevention Plan, the site map, and all site inspection records.

9. The Respondent shall maintain all stormwater prevention measures until all construction at the site is completed and all parcels have been stabilized with seeding and/or mulching.

### **C. Stipulated Penalties**

1. If the Respondent fails to complete any activity or fails to comply with any response or reporting requirement by the date specified in Section VIII.B ("Compliance Plan") of this Stipulation, the Respondent shall provide notice to the Complainant of each failure to comply with this Stipulation. In addition, the Respondent shall pay to the Complainant, for payment into the EPTF, stipulated penalties per violation for each day of violation in the amount of \$50.00 until such time that compliance is achieved.

2. Following the Complainant's determination that the Respondent has failed to complete performance of any task or other portion of work, failed to provide a required submittal, including any report or notification, Complainant may make a demand for stipulated penalties upon Respondent for its noncompliance with this Stipulation. Failure by the Respondent to make this demand shall not relieve the Respondent of the obligation to pay stipulated penalties.

3. All penalties owed the Complainant under this section of this Stipulation that have not been paid shall be payable within thirty (30) days of the date the Respondent knows or should have known of its noncompliance with any provision of this Stipulation.

**D. Future Use**

Notwithstanding any other language in this Stipulation to the contrary, and in consideration of the mutual promises and conditions contained in this Stipulation, including the Release from Liability contained in Section VIII.F, below, the Respondent hereby agrees that this Stipulation may be used against the Respondent in any subsequent enforcement action or permit proceeding as proof of a past adjudication of violation of the Act and the Board Regulations promulgated thereunder for all violations alleged in the Complaint in this matter, for purposes of Section 39(a) and (i) and/or 42(h) of the Act, 415 ILCS 5/39(a) and(i) and/or 5/42(h) (2004). Further, Respondent agrees to waive any rights to contest, in any subsequent enforcement action or permit proceeding, any allegations that these alleged violations were adjudicated.

**E. Cease and Desist**

The Respondent shall cease and desist from future violations of the Act and Board Regulations that were the subject matter of the Complaint as outlined in Section III.C ("Allegations of Non-Compliance") of this Stipulation.

**F. Release from Liability**

In consideration of the Respondent's payment of the \$3,500.00 penalty and any specified costs and accrued interest, completion of all activities required hereunder, to Cease and Desist as contained in Section VIII.E and upon the Pollution Control Board's acceptance and approval of the terms of this Stipulation and Proposal for Settlement, the Complainant releases, waives and discharges the Respondent from any further liability or penalties for violations of the Act and Board Regulations that were the subject matter of the Complaint herein. The release set forth above does not extend to any matters other than those expressly specified in Complainant's Complaint filed on June 14, 2005. The Complainant reserves, and this Stipulation is without prejudice to, all rights of the State of Illinois against the Respondent with respect to all other matters, including but not limited to, the following:

- a. criminal liability;
- b. liability for future violation of state, federal, local, and common laws and/or regulations;
- c. liability for natural resources damage arising out of the alleged violations; and
- d. liability or claims based on the Respondent's failure to satisfy the requirements of this Stipulation.

Nothing in this Stipulation is intended as a waiver, discharge, release, or covenant not to sue for any claim or cause of action, administrative or judicial, civil or criminal, past or future, in law or in equity, which the State of Illinois or the Illinois EPA may have against any person, as defined by Section 3.315 of the Act, 415 ILCS 5/3.315, or entity other than the Respondent.

**G. Right of Entry**

In addition to any other authority, the Illinois EPA, its employees and representatives, and the Attorney General, her agents and representatives, shall have the right of entry into and upon the Respondent's facility which is the subject of this Stipulation, at all reasonable times for the purposes of carrying out inspections. In conducting such inspections, the Illinois EPA, its employees and representatives, and the Attorney General, her employees and representatives, may take photographs, samples, and collect information, as they deem necessary.

A request for any modification shall be made in writing and submitted to the contact persons identified in Section VIII.H. Any such request shall be made by separate document, and shall not be submitted within any other report or submittal required by this Stipulation. **J. Enforcement of Board Order**

1. Upon the entry of the Board's Order approving and accepting this Stipulation and Proposal for Settlement, that Order is a binding and enforceable order of the Illinois Pollution Control Board and may be enforced as such through any and all available means.
