ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed December 9, 1975 is wholly inadequate. The mercury effluent levels are not given in comprehensible units; the Rule is not cited from which variance is desired; the process is not explained; and no attention is given to such alternatives as obtaining low-mercury or mercury-free caustic soda and acid.

Petitioner is referred to the Board's Procedural Rules for guidance in submitting a new Petition if it chooses to do so.

The Petition is dismissed without prejudice for inadequacy.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the day of December, 1975 by a vote of 4-0
