

Dear Members Of The Illinois Pollution Control Board:

I urge you to adopt strong controls that, by 2009, would cut coal plant mercury pollution by 90%. **R06-25**

Every river, lake, and stream in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring cost-effective measures for mercury control will clean up local lakes and streams and promote a healthy economy. **PC# 104**

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve ~~the bill~~ **HEALTHY** our families and our wildlife from unnecessary harm. **OFFICE**

Sincerely,
Name

APR 26 2005
