

Dear Illinois Pollution Control Board:

Please adopt the strong controls that, by 2009, would cut ^{RECEIVED} ^{CLEARING OFFICE} ^{MAY 10 2006} ^{PC331} mercury pollution by 90%.

As a parent in Illinois, I am alarmed by the threat to my children's health posed by the levels of mercury now found in our State's water and air. Our children must have a clean environment in which to grow + thrive and this proposal can help make that possible at a reasonable cost.

Sincerely, Eileen Wiviott
