STATE OF ILLINOIS Pollution Control Board

Hello: I am making a request to get more time to clean up my property. I am working on getting rid of 2 cars. Burgandy Reverse Blue Pontiac Parisienne, old car in my yard do run. But I am downsizing. I have disposed of 90% of planters containers. I have cleaned up appliances & driveway & some debris - a little at a time. I have a semi-truck with stuff underneath, I am working on that. I do want to clean my property up. I have had several people look at the automobiles and they never show up to get them. I would request an extension so I can have a marked improvement by the next visit. It's not that I don't want to clean up the "debris". Circumstances have arisen. But if you could please extend the time I would greatly appreciate it. I definitely need more time. It's a bigger job than I thought. So if you have it in your heart I would appreciate some time before you make a decision also my address is 3104 E 1961 Rd. Thank you so much!
