PCB 2006-136
(Enforcement - _____)

STIPULATION AND PROPOSAL FOR SETTLEMENT

Complainant, PEOPLE OF THE STATE OF ILLINOIS, by LISA MADIGAN, Attorney General of the State of Illinois, the Illinois Environmental Protection Agency ("Illinois EPA"), and D & L LANDFILL INC., ("Respondent"), have agreed to the making of this Stipulation and Proposal for Settlement ("Stipulation") and submit it to the Illinois Pollution Control Board ("Board") for approval. The parties agree that the statement of facts contained herein represents a fair summary of the evidence and testimony which would be introduced by the parties if a hearing were held. The parties further stipulate that this statement of facts is made and agreed upon for purposes of settlement only and that neither the fact that a party has entered into this

Stipulation, nor any of the facts stipulated herein, shall be introduced into evidence in any other proceeding regarding the claims asserted in the Complaint except as otherwise provided herein. If the Board approves and enters this Stipulation, Respondent agrees to be bound by the Stipulation and Board Order and not to contest their validity in any subsequent proceeding to implement or enforce their terms.

I. JURISDICTION

The Board has jurisdiction of the subject matter herein and of the parties consenting hereto pursuant to the Illinois Environmental Protection Act ("Act"), 415 ILCS 5/1 et seq. (2004).

II. AUTHORIZATION

The undersigned representatives for each party certify that they are fully authorized by the party whom they represent to enter into the terms and conditions of this Stipulation and to legally bind them to it.

III. STATEMENT OF FACTS

A. Parties

1. On February 9, 2006, a Complaint was filed on behalf of the People of the State of Illinois by Lisa Madigan, Attorney General of the State of Illinois, on her own motion and upon the

request of the Illinois EPA, pursuant to Section 31 of the Act, 415 ILCS 5/31(2004), against the Respondent.

2. The Illinois EPA is an administrative agency of the State of Illinois, created pursuant to Section 4 of the Act, 415 ILCS 5/4 (2004).

3. At all times relevant to the Complaint, Respondent has operated a sanitary landfill pursuant to Landfill Permit Number 1993-188-LF ("the permit") at Rural Route 3, Greenville, Bond County, Illinois.

B. Site Description

1. At all times relevant to the Complaint, Respondent has operated the sanitary landfill mentioned above.

2. Since at least June 24, 2003, and commencing on a date better known to the Respondent, the Respondent failed to adequately cover waste in the active area of the site which was along the northern line of the cell, towards the eastern side of the site. There was a large amount of exposed refuse along the entire length of the northern line of the cell and this exposed refuse extended all the way to the northwest portion of the cell.

3. This northwestern area of the cell had received a lift of waste more than sixty days prior to the June 24, 2003,

inspection and had not been covered with one foot of compacted clean soil material as intermediate cover.

4. On September 8, 2003, which was a Monday, the Illinois EPA conducted another inspection of the site. There was exposed refuse that had not been covered at the conclusion of operations on the previous Friday.

5. On September 8, 2003, the Illinois EPA inspected the northwest area of the active cell where a large amount of exposed refuse was observed on June 24, 2003; there was still some exposed refuse without a one foot cover of compacted clean soil material.

6. As of today's date, the Respondent represents that the site is no longer owned or operated by the Respondent.

C. Allegations of Non-Compliance

Complainant contends that the Respondent has violated the following provisions of the Act and Board regulations:

- Count I: **Failure to Properly Cover Waste at a Landfill in violation of Section 21(a)(d)(e)(o), 415 ILCS 5/21(a)(d)(e)(o)(2004)**
- Count II: **Violation of Landfill Permit in violation of Section 21(d)(1), 415 ILCS 5/21(d)(1)(2004)**

D. Admission of Violations

The Respondent admits to the violations alleged in the Complaint filed in this matter and referenced within Section III.C herein.

E. Compliance Activities to Date

As of today's date, the Respondent represents that it has no further ownership or control over the site.

IV. APPLICABILITY

This Stipulation shall apply to and be binding upon the Complainant and the Respondent, and any officer, director, agent, or employee of the Respondent, as well as any successors or assigns of the Respondent. The Respondent shall not raise as a defense to any enforcement action taken pursuant to this Stipulation the failure of any of its officers, directors, agents, employees or successors or assigns to take such action as shall be required to comply with the provisions of this Stipulation.

V. COMPLIANCE WITH OTHER LAWS AND REGULATIONS

This Stipulation in no way affects the responsibilities of the Respondent to comply with any other federal, state or local

laws or regulations including, but not limited to, the Act and the Board regulations, 35 Ill. Adm. Code, Subtitles A through H.

VI. IMPACT ON THE PUBLIC RESULTING FROM ALLEGED NON-COMPLIANCE

Section 33[©]) of the Act, 415 ILCS 5/33(c) (2004), provides as follows:

- ©) In making its orders and determinations, the Board shall take into consideration all the facts and circumstances bearing upon the reasonableness of the emissions, discharges or deposits involved including, but not limited to:
 - (I) the character and degree of injury to, or interference with the protection of the health, general welfare and physical property of the people;
 - (ii) the social and economic value of the pollution source;
 - (iii) the suitability or unsuitability of the pollution source to the area in which it is located, including the question of priority of location in the area involved;
 - (iv) the technical practicability and economic reasonableness of reducing or eliminating the emissions, discharges or deposits resulting from such pollution source; and
 - (v) any subsequent compliance.

In response to these factors, the parties state the following:

1. Human health and the environment were threatened and the Illinois EPA's information gathering responsibilities hindered by the Respondent's violations. The Defendant's actions posed a significant threat to the health, general welfare and physical property of the people.

2. There is social and economic benefit to the facility.

3. Operation of the facility was suitable for the area in which it occurred.

4. Compliance with the Act and accompanying regulations was both technically practicable and economically reasonable.

5. Respondent no longer owns or operates the facility.

VII. CONSIDERATION OF SECTION 42(h) FACTORS

Section 42(h) of the Act, 415 ILCS 5/42(h) (2004), provides as follows:

- (h) In determining the appropriate civil penalty to be imposed under subdivisions (a), (b)(1), (b)(2), (b)(3), or (b)(5) of this Section, the Board is authorized to consider any matters of record in mitigation or aggravation of penalty, including but not limited to the following factors:
- (1) the duration and gravity of the violation;
 - (2) the presence or absence of due diligence on the part of the respondent in attempting to comply with the requirements of this Act and regulations thereunder or to secure relief therefrom as provided by this Act;
 - (3) any economic benefits accrued by the respondent because of delay in compliance with requirements, in which case the economic benefits shall be determined by the lowest cost alternative for achieving compliance;

- (4) the amount of monetary penalty which will serve to deter further violations by the respondent and to otherwise aid in enhancing voluntary compliance with this Act by the respondent and other persons similarly subject to the Act;
- (5) the number, proximity in time, and gravity of previously adjudicated violations of this Act by the respondent;
- (6) whether the respondent voluntarily self-disclosed, in accordance with subsection (I) of this Section, the non-compliance to the Agency; and
- (7) whether the respondent has agreed to undertake a "supplemental environmental project," which means an environmentally beneficial project that a respondent agrees to undertake in settlement of an enforcement action brought under this Act, but which the respondent is not otherwise legally required to perform.

In response to these factors, the parties state as follows:

1. The Respondent failed to adequately cover wastes received at the landfill during some of the time that the Respondent operated the landfill.

2. Respondent did attempt to come back into compliance with the Act, Board regulations and applicable federal regulations, once the Illinois EPA notified it of its noncompliance, although it was not immediately successful in achieving compliance.

3. Noncompliance was of economic benefit to the Respondent. Adequate cover, while available, can be expensive. Operation of the landfill in accordance with the statute and the

permit terms was achievable throughout the time period covered by the Complaint.

4. Complainant has determined, based upon the specific facts of this matter, that a penalty of thirteen thousand two hundred fifty dollars (\$13,250.00) will serve to deter further violations and aid in future voluntary compliance with the Act and Board regulations.

5. To Complainant's knowledge, Respondent has no previously adjudicated violations of the Act.

6. Self-disclosure is not at issue in this matter.

7. The settlement of this matter does not include a supplemental environmental project.

VIII. TERMS OF SETTLEMENT

A. Penalty Payment

1. The Respondent shall pay a civil penalty in the sum of thirteen thousand two hundred fifty dollars (\$13,250.00) dollars within fifteen (15) days after the entry of the Board's Order approving and accepting this Stipulation and Proposal for Settlement. The Respondent stipulates that payment will be tendered to Respondent's attorney of record in this matter in a form acceptable to that attorney within seven (7) days after the entry of the Board's Order approving and accepting this Stipulation and Proposal for Settlement. Further, Respondent

stipulates that said attorney has been directed to make the penalty payment on behalf of Respondent as directed, in a manner prescribed below. Interest on any unpaid payment shall begin to accrue from the date the payment is due and continue to accrue until the date payment is received. When partial payment(s) are made, such partial payment shall be first applied to any interest on unpaid payment then due and owing. All interest on payment owed shall be paid by certified check, money order or electronic funds transfer, payable to the Illinois EPA, designated to the Illinois Environmental Protection Trust Fund and delivered to the address and in the manner described above.

4. In the event of default of this Section VIII.A, the Complainant shall be entitled to all available relief including, but not limited to, reasonable costs of collection and reasonable attorney's fees.

B. Future Use

Notwithstanding any other language in this Stipulation to the contrary, and in consideration of the mutual promises and conditions contained in this Stipulation, including the Release from Liability contained in Section VIII.D, below, the Respondent hereby agrees that this Stipulation may be used against the Respondent in any subsequent enforcement action or permit proceeding as proof of a past adjudication of violation of the Act and the Board Regulations promulgated thereunder for all violations alleged in the Complaint in this matter, for purposes of Section 39(a) and (i) and/or 42(h) of the Act, 415 ILCS 5/39(a) and(i) and/or 5/42(h) (2004). Further, Respondent agrees to waive any rights to contest, in any subsequent enforcement action or permit proceeding, any allegations that these alleged violations were adjudicated.

C. Cease and Desist

The Respondent shall cease and desist from future violations of the Act and Board Regulations that were the subject matter of the Complaint as outlined in Section III.C ("Allegations of Non-Compliance") of this Stipulation.

D. Release from Liability

In consideration of the Respondent's payment of the \$13,250.00 penalty and any specified costs and accrued interest, completion of all activities required hereunder, to Cease and

Desist as contained in Section VIII.E and upon the Pollution Control Board's acceptance and approval of the terms of this Stipulation and Proposal for Settlement, the Complainant releases, waives and discharges the Respondent from any further liability or penalties for violations of the Act and Board Regulations that were the subject matter of the Complaint herein. The release set forth above does not extend to any matters other than those expressly specified in Complainant's Complaint filed on February 9, 2006. The Complainant reserves, and this Stipulation is without prejudice to, all rights of the State of Illinois against the Respondent with respect to all other matters, including but not limited to, the following:

- a. criminal liability;
- b. liability for future violation of state, federal, local, and common laws and/or regulations;
- c. liability for natural resources damage arising out of the alleged violations; and
- d. liability or claims based on the Respondent's failure to satisfy the requirements of this Stipulation.

Nothing in this Stipulation is intended as a waiver, discharge, release, or covenant not to sue for any claim or cause of action, administrative or judicial, civil or criminal, past or future, in law or in equity, which the State of Illinois or the Illinois EPA

may have against any person, as defined by Section 3.315 of the Act, 415 ILCS 5/3.315(2004), or entity other than the Respondent.

E. Right of Entry

The Respondent represents that it no longer owns the site in question. No affirmative right of entry to this site as to this Respondent is required.

F. Modification of Stipulation

The parties may, by mutual written consent, agree to extend any compliance dates or modify the terms of this Stipulation. A request for any modification shall be made in writing and submitted to the contact persons identified in Section VIII.H. Any such request shall be made by separate document, and shall not be submitted within any other report or submittal required by this Stipulation. Any such agreed modification shall be in writing, signed by authorized representatives of each party, and then accompany a joint motion to the Illinois Pollution Control Board seeking a modification of the prior order approving and accepting the Stipulation to approve and accept the Stipulation as amended.

G. Enforcement of Board Order

1. Upon the entry of the Board's Order approving and accepting this Stipulation and Proposal for Settlement, that Order is a binding and enforceable order of the Illinois Pollution Control Board and may be enforced as such through any and all available means.

2. Respondent agrees that notice of any subsequent proceeding to enforce the Board Order approving and accepting this Stipulation and Proposal for Settlement may be made by mail and waives any requirement of service of process.

3. The parties agree that, if the Board does not approve and accept this Stipulation and Proposal for Settlement, then neither party is bound by the terms herein.

4. It is the intent of the Complainant and Respondent that the provisions of this Stipulation and Proposal for Settlement and any Board Order accepting and approving such shall be severable, and should any provision be declared by a court of competent jurisdiction to be inconsistent with state or federal law, and therefore unenforceable, the remaining clauses shall remain in full force and effect.

WHEREFORE, Complainant and Respondent request that the Board adopt and accept the foregoing Stipulation and Proposal for Settlement as written.
