#### **ERRATA SHEET #2**

NOW COMES Proponent, the National Solid Wastes Management Association – Midwest Region ("NSWMA") by and through its attorneys, Sorling, Northrup, Hanna, Cullen & Cochran, Ltd., Charles J. Northrup, of counsel, and pursuant to, in part, the Illinois Pollution Control Board's August 17, 2006 Order, hereby submits an Errata Sheet with respect to a portion of the proposed rule amendments.

- 1. On July 27, 2006, the NSWMA filed its "Proposal to Amend Certain Pollution Control Board Regulations Related to Solid Waste Management Facilities." These proposed amendments related to certain requirements at 35 Ill.Adm. Code 810 and 811. On August 17, 2006, the Board accepted the Proposal for hearing.
- 2. On January 16, 2007, the NSWMA filed its "Supplemental Information and Errata Sheet."
- 3. Subsequent to the filing of the Errata Sheet, the Illinois Environmental Protection Agency identified what it believed was a typographical error in the list of leachate monitoring parameters set out in new "811.Appendix C" According to the Illinois EPA, the list of leachate monitoring parameters should have included "Total Dissolved Solids (TDS) mg/l" and that the acronym for Total Suspended Solids was incorrectly identified as "(TDS)" when it should have

been "(TSS)". The NSWMA concurs with the corrections proposed by the Illinois EPA and therefore proposes that the Board consider the list of leachate monitoring parameters as corrected as if originally included in the initial Proposal. The revised list of leachate monitoring parameters is attached to this filing as an Errata Sheet #2 (See Exhibit 1).

Respectfully submitted,

NATIONAL SOLID WASTES MANAGEMENT ASSOCIATION
