PC#147

Date: 1/28/07

To: Illinois Pollution Control Board,

From: Bill Mahl,

With two Midwestern teams ready to do battle in the Super Bowl, it is ironic that another group is trying an "end run" to appeal the Peoria County Board's decision that denied a permit to expand a toxic waste landfill.

Peoria County citizens recognized that a hazardous waste landfill over a shallow aquifer that supply most of the Peoria area water supply is an accident waiting to happen.

The people have spoken to its representatives and they voted accordingly....please don't let PDC win this ball game by endangering the health and well being of our friends and neighbors.

Bill
