Illinois Pollution Control Board

After reading and viewing all the pros and cons of PDC's proposed expansion of the hazardous waste landfill dump, I would ask that the Illinois Pollution Control Board vote against any further expansion in this area.

The future health of this community could be disastrous in both water and air pollution. No matter what precautions would be undertaken by PDC, there is no assurance that this wouldn't change with the volume brought in.

I would ask each member of the Control Board; would they permit this site over their water aquifer? I would believe the answer would be a definite "NO".

Please vote not to allow

this to happen to us.

I thank you for your support
on this proposal.

Sincerely,

Ronald E. Roberts
