PC#191

To whom it may concern (which should be copy one)-
STATE OF ILLINOIS
Pollution Control Board

It truly disgusts me to think that you would even consider expanding Peoria's landfill. Peoria is already known as the "Armpit of Illinois," do you really want to make it worse. Whenever people from out of town visit, they ALWAYS comment on how stinky Peoria is. It is wretched, but it doesn't compare to the disgusting, foul water that comes out of my faucet. I absolutely will NOT drink any water that isn't filtered. I fear that drinking Peoria water is slowly causing me cancer or something else debilitating. I am currently pregnant and in the middle of the night when I am thirsty, I will walk downstairs for filtered water before drinking it out of the faucet that is only 10 feet from my bed. Peoria is trying to get better - don't make it worse!!! Thank you - Megan Schmidt
Peoria, IL
